OF THE

SELECTMEN

AND OTHER TOWN OFFICERS

SUNAPEE,
NEW HAMPSHIRE

FOR THE YEAR ENDING

JANUARY 31, 1919

ANNUAL REPORTS

OF THE

SELECTMEN

AND OTHER TOWN OFFICERS

SUNAPEE,

NEW HAMPSHIRE

FOR THE YEAR ENDING

JANUARY 31, 1919

TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Sunapee, in the County of Sullivan, in said State, qualified to vote in Town Affairs.

You are hereby notified to meet at I. O. O. F. Banquet Hall in said Sunapee, on Tuesday, the eleventh day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

Art. 1. To choose a Town Clerk for the year ensuing.

Art. 2. To hear the reports of the Town Treasurer, Board of Selectmen, Water Commissioners, Auditors, Agents and Committees or other Officers heretofore chosen, and pass any vote relating thereto.

Art. 3. To choose all necessary town officers for the year ensuing.

Art. 4. To see what sum of money the town will raise to pay the outstanding debts and interest on its notes and water bonds, and pass any vote relating thereto.

Art. 5. To see what sum of money the town will raise to defray town charges for the year ensuing, and pass any vote relating thereto.

Art. 6. To see what sum of money the town will raise to repair Highways and Bridges for the year ensuing, and pass any vote relating thereto.

Art. 7. To see if the town will vote to raise Fifteen Hundred Dollars (\$1,500.00) to maintain its Trunk Line Highway, and pass any vote relating thereto.

Art. 8. To see if the town will vote to raise Two Thousand Two Hundred Thirty-three Dollars and fifty cents, (\$2,233.50) to build its Central Trunk Line, and pass any vote relating thereto.

Art. 9. To see if the town will vote to accept State Aid for Highways, and pass any vote relating thereto.

Art. 10. To see what action the town will take as to raising or hiring and appropriating money for the permanent improvment and construction of a highway from School House corner so called, in the village of Sunapee to the Town Line between Sunapee and Newbury on the road leading to Mt. Sunapee, it being understood that the State shall appropriate an equal sum.

Art. 11. To see what sum of money the town will raise for electric lights, and pass any vote relating thereto.

Art. 12. To see what sum of money the town will raise to maintain its Fire Department, and pass any vote relating thereto.

Art. 13. To see what sum of money the town will raise for the care of its Cemeteries, and pass any vote relating thereto.

Art. 14. To see what sum of money the town will raise for the maintenance of its Public Library, and pass any vote relating thereto.

Art. 15. To see what sum of money the town will appropriate to pay on its Water Bonds, and pass any vote relating thereto.

Art. 16. To see if the town will vote to license Junk Dealers, and pass any vote relating thereto.

Art. 17. To see if the town will vote to instruct its Selectmen to hire money on the anticipation of taxes, and pass any vote relating thereto.

Art. 18. To see if the town will vote to raise One Hundred Dollars (\$100.00) for the maintenance of the District Nurse, and pass any vote relating thereto.

Art. 19. To see what sum of money the town will raise for the observance of Old Home Week, and pass any vote relating thereto.

Art. 20. To see what action the town will take in regard to a set of Public Weighing Scales, and pass any vote relating thereto.

Art. 21. To see what action the town will take as to building and erecting a Roll of Honor or Memorial in memory of boys of our town who have served in the war against Germany.

Art. 22. To see what action the town will take in regard to redeeming the outstanding town notes at a low rate of interest, and issuing new notes at 4%, and pass any vote relating thereto.

Art. 23. To see what action the town will take in regard to building a suitable place to care for tramps, and pass any vote relating thereto.

Art. 24. To transact any other business that may legally come before said meeting.

Given under our hands and seal, this twenty-fourth day of February, in the year of our Lord nineteen hundred and nineteen.

FRANK M. HARDING,	}	Selectmen of Sunapee.

ENGINEERS' REPORT OF FIRE DEPARTMENT

Another year has passed and we have been favored with a very small loss by fires.

The property of the department is in good condition and ready for a call at any time, but, we must say that we are in bad shape in getting the apparatus to the scene of the fire at all times as was shown at a fire on Lake Avenue last summer, when there was not a horse to be found to take the chemical or any other piece of apparatus, and, if it had not been for the good work of two or three who lived near by, the building would have burned and perhaps more with it for all the department could do.

It seems to us that the town should begin to look into the matter of getting a piece of motor apparatus to better protect the valuable property around the Lake as well as outside of the village.

There was five hundred feet of hose bought the last year, but, owing to the shortage of help, and high cost of material the central fire station was not painted, but hope

it may be this spring.

Alarms for the year.

Feb. 11, Box 19. Chimney fire, no damage.

June 3, Box 19. Out of town call.

Aug. 22, Box 19. Lake Avenue, damage \$300.00

Respectfully submitted,

REPORT OF HEALTH OFFICER

July 1st 1918, diptheria was reported in the home of F. P. Marks who lost two children from the disease and other cases immediately followed until seven families were in quarantine and all public gatherings prohibited. With the free supply of antitoxin furnished by the state and freely used, the disease was held in check and no other deaths occurred. The homes were thoroughly fumigated and bills, including aid to families, amounting to \$136.68 paid.

Next came the spanish influenza and the town well knows its history and the discomfort which it has brought to our town including sickness and expense and in a few homes death. This disease seems to be world wide, many places having it in epidemic form, whole families being taken. New Hampshire alone has recorded nearly three thousand deaths, and the end is not yet. Let us hope that some serum may be discovered that will combat the disease, that we may feel safe and free from its ravages. Until that time we should all be cautious, careful and prudent. Sunapee thus far has been exceedingly fortunate compared with other towns and cities in the state but we will not be satisfied until it is driven from our town.

Your Health Officer is in close touch with state authorities and will do all in his power with information in hand to protect your homes. I thank the town's people for the good spirit shown through the long weeks of quarantine and if any sickness or deaths have been prevented, it is to your credit.

ALBERT D. FELCH, Health Officer.

MOTT L. BARTLETT

SCHOOL BOARD'S REPORT

We hope that the public appreciate what the Superintendent, Teachers and School Board have been up against the past year.

First, the conditions were such, owing to the war, that it has been almost impossible to secure teachers at any salary the town could possibly give. In some instances it has been impossible to secure a teacher so that we could commence school at the proper time.

Second, the prevailing epidemic has been the cause of closing school twice in the fall term, thus preventing the usual progress. There have also been many absent and tardy marks which have been a drawback for our children. We wish that the parents would make a more earnest effort to have their children at school and on time so that we may eliminate some if not all of our absent and tardy marks. The absences have been unavoidable in many cases on account of the influenza, but the tardy marks are not always necessary.

Our High School is on the approved list, but if our attendance does not improve under normal conditions, we are in danger of losing the state approval. We cannot urge too strongly the co-operation of the parents in regard to regular attendance. We should appreciate the liberality of our town in furnishing us such school priv-

ileges and make the best use of them.

The past year has been more expensive than usual, for in order to keep our present teachers we have paid them when school was closed on account of the epidemic. The fuel and supplies have advanced in price very materially, so the amount in the treasury has been reduced more than it would have been under normal conditions.

The school buildings in rural districts are in very good condition except the Wendell and Georges Mills Schools, which need, the former painting on the outside and the latter, whitening. The Center Building must have new gutters, as the zinc is worn out. They have been repaired and we are in hopes they will last until more extensive repairs can be made. This building also needs painting on the outside and the ceilings whitened.

We are sorry not to be able to continue the Agricultural course which was installed last year. It was impossible to secure an instructor for this course, but we are in hopes to start it again in the near future. For further particulars and suggestions we would refer you to your Superintendent's report.

Owing to the new State Law requiring financial accounts until the 31st of August instead of April 15th as formerly, we submit the foregoing report to the 31st of August, 1918.

JAMES L. BROOKS,	} School Board
DAISY E. YOUNG,	
HATTIE M. SMITH,	

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board of Sunapee:

I hereby submit my third annual report of the schools of Sunapee for your consideration.

The year has been an extremely hard one for all connected in any way with the schools. Weather, sickness and war conditions have combined to lower the efficiency of our schools.

At the opening of the fall term each school had a different teacher than it had last year; and, worse yet, some schools were without any teachers. Miss Collins and Miss Brooks had taught for us before, but in other schools. It was impossible to find a man teacher after the last of July who would come to Sunapee at what we could think of paying. It looked one while as though we would not be able to find a woman for our principal of the Central school. We were finally successful in obtaining Miss Lois E. Mann of Cumberland Mills, Maine, a teacher having quite a successful experience in high school work. We were fortunate to secure her as she is proving to be a very capable principal and efficient teacher.

Miss Cushing is doing good work in her departments, Domestic Arts and Science. Pupils seem to be more and

more interested in these important branches. The equipment has been somewhat improved by the purchase of more dishes. We believe domestic arts to be one of our most important subjects, as it bears directly on the future life of the girls of our schools. There are all together too few good housekeepers in our land.

We were fortunate to obtain the services of one of our former teachers, Mrs. Bartlett, to teach our French and History, as French teachers are very scarce. Mrs. Bartlett has taken hold of the work with much enthusiasm.

The high school is doing the best work this year that it has done since I have been with you. The order has much improved and the pupils are working, at least while they are in the schoolhouse. The spirit of the school is good and there is quite an interest in study.

The pupils are still giving too much attention to outside things while school is in session. These things not only take up the time out of school that they need for study, but they also take their minds off their studies a large part of the time while they are in school. The parents must help in this if they expect to have their boys and girls do their school work. There must be more or less who will fail this year to make their promotions as they have been out so much and are doing so much outside work. We do not want to lose the state approval of our school that we have tried so hard to get. The state demands a certain amount of work as a minimum to be done if we are to remain on the approved list of schools. At least a part of the pupils will be able to do

this amount in the allotted time; others will have to take more time.

Miss Collins is a very efficient teacher, and the grades under her teaching are doing good work. She had taught for us in the Wendell school and we expected much from her and are not being disappointed.

Miss Gale is having hard work to keep her pupils up to grade as they are out of school so much. Several of her pupils will have to repeat the work another year unless their attendance and work improve at once.

The upper grades have been very unfortunate in not having a teacher for any length of time. The work in this room has been very badly broken up. We just get well under way when we have to find a new teacher. It is a room that needs a very strong, efficient teacher. Miss Barton, the present teacher, is liked very much by the pupils and is doing all that can be expected for them.

I was very sorry to have the Wendell school reopen, as I am very sure the pupils would get much more at the Central school than they can at the Wendell where there are so many classes for one teacher to care for. Mrs. Grace Carey was engaged to teach this school this winter term, but she was taken sick Saturday before the school was to open Monday, and is still unable to be out. Mrs. L. A. B. Dodge of your own town is substituting until Mrs. Carey is able to take the school. We all know what a grand teacher Mrs. Dodge is. It was very kind of her to teach for us as she had decided not to teach any more.

The school is working under her and good results are being obtained.

Our rural schools are small and are being taught by young girls without any experience. They are trying and are willing to take suggestions and to do their best to carry them out.

It is more and more difficult each year to find teachers for rural schools. Until teachers are more numerous than they are this year the best thing to do with the Collins school is to bring it to the Central school. One good team will bring all that cannot walk. The school at South Sunapee can be united with the Wendell or the Central school. There are only nine pupils in this school and four of them come from Newport. One good horse can carry them all as they are all small. If we cannot get experienced and trained teachers to go to these schools we can bring them to the schools where we can get such teachers. The country boy and girl ought to have an equal chance with the village boy and girl.

We regret very much that we had to give up the course in agriculture as we believe it is just what we ought to have in a school like Sunapee. In fact, any small village school needs just such a course. We ought to all know something about agriculture from the scientific side as well as the practical side, and this course will give us both. We hope you will see your way clear to reinstate this course just as soon as it is possible to find an efficient teacher for it. We ought to make this course strong enough to receive the financial help offered by the

Federal Government under the Smith-Hughes bill. By this bill the town is given dollar for dollar if it meets the requirements which are not difficult nor expensive. It is a step in the right direction. It means keep the boys on the farms instead of educating them away from them.

The world war has demonstrated to us that we need very much more vocational education than we have been having. The Federal Government has said by the measure that it has lately passed that we need more vocational education. Business men say the graduates from our high schools and colleges are not prepared for business. Then let us not be the last to give to the boys and girls what they need to go out into life and make useful citizens. Every boy and girl in our state should be given an opportunity to get an education that will fit him for the line of work for which he is best adapted. Of course a small town like ours cannot fit for all the different callings, but we can fit for those which the large majority of our boys and girls will follow.

New blackboards that have been very much needed for several years have been installed in all the rural schoolhouses and in the Georges Mills schoolhouse. No one thing can add more to the efficiency of a schoolroom than good blackboards. During the last two years our school houses, especially the rural ones, have been made much more attractive, comfortable and sanitary. Some of them still need to be painted or varnished on the inside, and the ceilings whitewashed. This should be done not only to improve their appearance but to make them clean.

Books and Supplies

Very few changes have been made in books. The arithmetics that are being used are far from being the best that are in the market today. They should be changed for a more modern and a more workable book. Our pupils are doing very poor work in the study and we believe a different book would do much to improve and strengthen this study.

Supplies during the last three years have advanced greatly in price. All white papers, including examination, composition and practice papers, together with composition books, note books, spelling blanks and drawing paper have advanced from 250 per cent to 300 per cent. Ink, pens, blackboard, erasers and crayons have advanced 200 per cent. Lead pencils and penholders have advanced 50 per cent and the cheaper grades have been discontinued.

Books have advanced from 25 per cent to 50 per cent. We are sure that if you will take the time and trouble to compare the total cost of your books and supplies for the last three years with the preceding three years you will find the total increase in cost to Sunapee has been very small. This has been due largely to the careful supervision of the teachers and the willingness of the pupils to do their part when their attention has been called to the need. Paper is being used very closely and sparingly; none is thrown away until it is used all over. Books are being better cared for, although we have not yet reached the point of perfection here that we should.

Parents, teachers and pupils must unite here. Books are not to be taken home unless a suitable book-bag is furnished by the pupil desiring to take the book home. We have been trying to get time to renumber and stamp all the books in town before this report was written, but have not been able. We hope to accomplish this task in the near future. We take this opportunity to ask all parents to see if there are any stray school books in their homes and if so to please have them returned that they may be stamped and numbered with the others. Some times books are carried home by the pupils and forgotten.

We need more maps in the rural schools. Maps are as essential to the study of geography and history as are books. We need a set of good reference books for the high school and another set for the grammar school. The tendency today is more reference books and fewer regular text books. A greater variety of reading books should be furnished for the lower grades.

Attendance

Our attendance has been and still is very poor. Parents do not realize the great importance of having their children at school **every day on time**. Many pupils have to repeat their work another year because they have been absent so much of the time, and the sad part of it is that much of this absence was unnecessary. Some of our pupils have been tardy a third of the time. Just think what a habit such a pupil is forming for life. What business house would hire a boy or girl with such a

school record? It not only injures the pupil who is tardy but it also injures all the pupils in his room or class. He disturbs the whole school or class when he comes in late. Such a pupil should be excluded from school until he or she can get there on time. We should in no way allow boys and girls to form bad habits for life in our schools. The habits they form here will stay by them much longer and do much more for them than all they will get from their books. Much of the latter will soon be forgotten but their habits will make them what they will be.

A few parents, and we are glad to say they are but few, even refuse to write excuses telling why their child is absent or tardy. This is a state law and must be enforced. We have been altogether too lax and must do better to have the attendance laws enforced.

General

Our schools are far from being all that we would have them. Some of them are not doing as well as they did last year and some are not doing as good work as they did two years ago. We think we know what the trouble is in many instances, but this is not the place to speak of it. I feel that I have made the least improvement in your schools of any I ever had under my supervision, and I have tried the hardest I ever did to accomplish something. I am confident the trouble is not entirely with the superintendent. There is a lack of sympathy and co-operation without which good work can never be accomplished. If this cannot be brought about with the present corps of teachers, school officials and superintendent,

then different ones should be found to take their places. I am positive that your superintendent is willing to go if the fault is with him. Newport and New London schools have improved under his supervision and a few of yours have but the total results are far from satisfactory to him. He should be given more freedom and authority and then held responsible for results. To quote from the "School Board Journal", February, 1919, Page 30: "I think the board of education should appoint teachers solely upon the recommendation of the superintendent. Now, you do not all agree to that, you want to take a hand in that yourselves, but I want to tell you that it will make for good schools and better schools in the long run if the board of education rests the responsibility for recommending of teachers and the appointment of teachers in the superintendent. That is his job. In an increasing number of cities in this country, the law provides that no one can be appointed without, first, the recommendation of the superintendent of schools. Of course, the superintendent makes mistakes, if he did not make mistakes he would be worth a million dollars a year to the Bethlehem Steel Company, but he will not make as many mistakes as the board of education will make provided that man has been appointed upon merit. . . . He has a better opportunity for finding out where good teachers are than boards of education. . . . Throw the responsibility upon him."

I believe all books and supplies should be purchased only upon the recommendation of the superintendent. These to a large measure are the working tools of his profession. He in turn should recommend only after having

consulted with the teachers who are to use these supplies and books. Every school system has a large number of books lying idle on its book shelves. This is just so much money wasted, nay, worse than wasted, because it is not only lying idle, but it is also depriving the children of books and apparatus that they need in their work. If only a certain amount of money is available for school use and a part of it is unwisely spent then there is just that much less to be wisely and profitably spent. If a town is to spend its money for the services of a superintendent then they ought to give him freedom and hold him responsible for results. The only way he can get results is through his teachers. He may have the best educational methods and ideas available, but if he cannot get his teachers to use them they are of no practical value, either to him or the town.

Those who read this report must keep in mind that it covers the time from February first, 1918, to February first, 1919. Many things are in much better shape now than they were the first part of the year. Many things have been adjusted and others are being adjusted. The spirit and work of the high school has much improved; other divisions of the Central school have made rapid improvements. The Georges Mills school under Miss Clara Brooks has made and is making very rapid improvement. Miss Brooks is a growing, industrious, hard-working teacher. She takes suggestions in the right spirit and at once tries to put them into operation.

There is one important improvement that is much needed that I have neglected to mention. There ought to

be installed proper shades to the windows as fast as money will permit. I would recommend that the windows on the east side of the Central building be the first to receive such shades. I recommend the Allen shade which is the best shade for schoolhouses that I have ever seen. The present shades are not suitable for a schoolhouse. "Venetian blinds are entirely unfit for schoolroom use, as they catch and hold the dust and let the light in by streaks." They also shut out the best part of the light, the upper part, that should be admitted to the ceiling and by it reflected upon the books in the pupils' hands. The pupils who sit next to the windows receive too strong a light directly into their eyes and the pupils on the other side of the room receive too little light, especially on cloudy days. This can be adjusted only by adjustable shades like the Allen shade.

In closing I want to thank all who have in any way tried to make our schools more efficient, and to further solicit your help and co-operation. May we overlook our mistakes but remembering them enter upon the new year determined that we will do all in our power to better our schools and to help our boys and girls.

Respectfully submitted,

W. H. S. ELLINGWOOD.

Superintendent of Schools.

SCHOOL WARRANT

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the School District of Sunapee qualified to vote in District affairs:

You are hereby notified to meet at the I. O. O. F. Banquet Hall in said district on Saturday, the fifteenth day of March, 1919, at two of the clock in the afternoon, to act upon the following subjects.

Art. 1. To choose a Moderator for the ensuing year.

Art. 2. To choose a Clerk for the ensuing year.

Art. 3. To choose a member of the School Board for the ensuing three years.

Art. 4. To choose a member of the School Board for the ensuing two years.

Art. 5. To choose a Treasurer for the ensuing year.

Art. 6. To choose one or more Auditors, and such other officers and agents, as the voters may judge necessary.

Art. 7. To hear and act upon the report of the School Board, Treasurer, Auditors and Committees heretofore chosen.

Art. 8. To see what sum of money the district will raise for school purposes above what is required by law.

Art. 9. To see what sum of money the district will raise for repairs.

Art. 10. To see what sum of money the district will raise to pay the salaries of its School Board, Truant Officer, Clerk and Treasurer.

Art. 11. To see what the district will vote in regard to Medical Inspection.

Art. 12. To see what sum of money the district will vote to raise for Insurance on its buildings.

Art. 13. To transact any other business that may legally come before said meeting.

Given under our hands at Sunapee this twenty-seventh day of February, 1919.
